BYOD – Bring your own device | Laptop

Elanora State High school is a BYOD school. You are required to provide your own device for your schooling. Our full device specifications can be found on our [website](#) under the curriculum tab. Please note that **Chromebooks or IPADS are not compatible** with our BYOD infrastructure.

Please note for new devices ensure they have already been **opened and setup prior** to bringing into school. Students whose device is not set up will be unable to access the schools network. If you are unsure how to do this please visit the store you purchased from or ensure you do this at time of purchase.

This is a starter stationery list. Some subjects may require a new exercise book each term or semester and some classroom teachers may request students to bring additional stationery items as required throughout the year.
